submit application to pay impact fees and provide access to a water connection to my lot Plat \_\_\_\_ Lot# \_\_\_\_ in the Indian Ridge Subdivision as recorded on the official plat on file at the recorders office in Manti, Sanpete County, Utah.

The individual water connection will be installed in compliance with all Sanpete County and Utah State Regulations for a public water system. Availability may be subject to proximity to existing main water line (generally within 300 feet) and available sources and storage as required by Utah State regulations. This connection includes a 3/4 inch water meter but no title to water rights, storage tanks, in-line system or water source which are sole property of the IRWCD.

The IRWCD system will provide service identified as year around recreational residential service for indoor use only. As a recreational service the system must be closed down for a brief period of time each year. That time period to be determined by IRWCD.

It is understood that IRWCD does not provide the connection for pipeline or hydrant to the lot from the meter. The connection owner is responsible for the connection installation to be done in accordance with specifications provided by the IRWCD. An inspection fee of \$100 will be charged to the customer if installation is not completed by the District.

The customer must install an approved pressure regulator to be located in any dwelling in which fixtures are installed.

Service and usage fees begin at such time as main line is connected to lot. The current water fee is \$320.00 per year plus a graduated water use fee.

I agree to pay all amounts due within thirty (30) days of billing date. A late fee may be assessed on past due accounts plus interest at the rate of 1.5% per month. I further agree to pay all legal fees and costs incurred if necessary to collect past due amounts.
